

CLIMATE CHANGE POLICY

GHCL Limited recognizes the threat of climate change. To combat climate change, we hereby announce climate change policy:

- GHCL Limited will adopt environment friendly technology, business practices & innovation to combat climate change
- Incorporate green perspective in all key organisation process
- Identify & assess potential environment risks
- Phase out of substance /Process having highest environmental impact in life cycle
- Conduct Environment Impact Assessment studies to assess the impacts of our operations on nearby biodiversity and surrounding environment.
- Reduce carbon footprint by adopting energy conservation techniques.
- Creating awareness amongst employee and their families on the benefit of environment conservation.

Chief Operating Officer
