Quarterly & Annual Update

— 2021/22

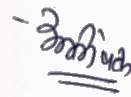

Commenting on the Q4 & FY20 performance, Mr. R. S. Jalan, MD said:

“The current COVID-19 pandemic has resulted in a major disruption in various business segments. The situation accentuated a need to take various measures to comprehend the spread of the virus, like nationwide lockdown including travel bans, physical distancing that has however triggered significant widespread economic slowdown across the world.

GHCL has complied with all the regulations that have been notified by the Government from time to time. Whereas we had taken the initiative of “Work from home” at our offices, however with Lockdown, the production facilities have also remained closed for a major period of time, thus impacting production and sales.

We have received continuous support from our stakeholders including Government agencies and supply chain partners. Whereas the nation is passing through a tough time, however we believe that this disruption will also create opportunities and we at GHCL would like to assure our stakeholders that we would be agile and focused for the same. “

Management Commentary

- **Recorded a PAT of Rs. 80 crore for Q4FY20 compared to Rs. 119 crore in Q4FY19**
 - Inorganic Chemicals – The EBITDA Margins have been lower by 4%. This is despite a drop in realization by 11%. We would recover 7% due to lower input cost and operational efficiencies. Further due to COVID-19, the production and sales were also impacted.
 - In Textile, there has been a **One time Impact of Rs. 30 crore** on account of COVID-19, forex and potential markdowns and reduction in the value of inventories, investment and receivables.
 - There has been Income Tax benefit due to which lower tax has been provided for the quarter.
- **For the full year, recorded a Profit of Rs. 407 crore as compared to Rs. 361 crore of FY19.**
 - In the Chemical segment, we have maintained our last year profitability despite impact of COVID-19 and decline in realizations by about 2%. EBITDA Margins have been maintained at same level of 31%.
 - In the Textile, the impact is mainly on account of COVID-19 due to which a One Time Impact of Rs. 30 crore has been considered (as above).
- Investor rewarded by an outlay of Rs. 104 crore during the quarter on account of Buyback and Interim Dividend.
- Conferred **“Great Place to Work”** for 4th consecutive year.

A handwritten signature in black ink, appearing to read 'S. Singh', is located in the bottom right corner of the slide.

Demerger of the Textiles business of GHCL

Fine prints of demerger

- The Board approved a scheme of demerger where **Textiles business of GHCL will be demerged into a separate Company**
- Shareholders of GHCL will be allotted shares in the new company in the **swap ratio of 1:1, one share of Rs. 2 each for every share of Rs. 10 held in the GHCL**
- The resulting company will takeover **all the assets and liabilities of the Textile business and will be listed on NSE and BSE.**
- The entire process is likely to **complete in an about 12 to 15 months**
- **Equity share capital** of new company will be **Rs. 20 crore**
- **No change in the shareholding pattern** of the Demerged Company

Key Rationale

- **Nature of product offerings and risk and return profile** of both the businesses are very different
- **Unlock and maximise value** of all the stakeholders
- Provide **focused leadership and efficiently utilise management bandwidth**
- Address **independent business opportunities** with **prudent capital allocation**
- Opportunity to **augment product mix** in each business by **hiring specialised professionals**
- **Increased operational and customer focus** for respective business

Focused growth

Concentrated approach

Business synergies

Appointed date for the scheme will be the date on which order of NCLT filed with RoC.

Rewarding Shareholders: Buyback & Interim Dividend

Update on Share Buyback

- The Board of Directors of the Company had approved the proposal of Buyback of equity shares with a face value of Rs. 10 each at its meeting held on 23rd January, 2020
- The Buyback of 32,00,000 Equity Shares was **completed in record time of one month** (completed on 28th February, 2020), with an overall outlay of Rs. 70 crore

BuyBack

Interim Dividend

- Owing to the strong operating cash flows during the financial year, the Board approved an interim dividend on March 26, 2020 of **30% i.e. Rs. 3 per equity share of Rs. 10 each**
- The total outlay was Rs. 34 crore

Total Cash Outlay of Rs. 104 crore being 26% of PAT of FY 2020

Signature

Update on COVID- 19

Exhibit 1

- In compliance with the directives received by the Govt. of India and in order to limit the spread of novel Coronavirus, the management decided to temporarily shutdown its Chemical and Textiles facilities across all locations.
- After obtaining the required permissions from concerned Government authorities, Soda Ash plant started in 3rd week of April, while Textile units restarted in 1st week of May 2020.
- The Operations will be ramped gradually depending upon the market conditions and demand outlook.
- All the precautions have been taken at the plant level to ensure health, safety and well-being of the employees.
- In light of the evolving pandemic situation, the Company's performance in Q4 FY20/ FY20 may not depict a correct view, and may therefore not give a fair assessment if compared YoY.
- Exhibit 1 shows Net Revenues & EBITDA Pre and Post COVID-19 outbreak as the pandemic impacted Q4FY20.

Q4 FY20 Segment Highlights – Inorganic Chemicals

Particulars	Q4 FY19	Q4 FY 20	YoY
Net Soda Ash Production (Lac MT)	2.49	2.41	-3%
Revenue (Rs. Crores)	607	519	-14%
EBITDA (Rs. Crores)	212	162	-24%
EBITDA %	35%	31%	-4%

Performance Insights

- Despite a shutdown impact of 20K tons due to COVID-19, the production is down by 8 K MT compared to Q4FY19.
- Revenue down by 14 % due to lower sales due to lockdowns and softer prices by 11% YoY.
- Consequently EBITDA down by 24% compared to Q4 FY19 primarily due to softer prices and lower sales as stated earlier.

Chemicals – Quarterly Trend

Net Production in MT ('000)

Signature

FY20 Segment Highlights – Inorganic Chemicals

Particulars	FY19	FY20	YoY
Net Soda Ash Production (Lac MT)	9.31	10.05	8 %
Revenue (Rs. Crores)	2,182	2,198	1%
EBITDA (Rs. Crores)	672	686	2 %
EBITDA %	30.8%	31.2 %	40 BPS

Performance Insights

- Production increased by 74 K MT during the year due to Brownfield expansion completed last year.
- Maintained Revenue inspite of softness in prices by around 2% compared to last year due to higher volumes.
- EBITDA growth by 2% compared to FY19 primarily due to higher volumes compensated by softer prices and the higher raw material cost.
- Soda Ash demand is expected to degrow due to downstream Glass segment because of COVID-19 and softening soda ash prices.

Chemicals – Yearly Trend

Net Production in MT ('000)

Despite severe impact of COVID-19 and softening prices, our margins remained stable.

9M FY20 Segment Highlights – Textiles

- During the 1st 9 months, Home Textile seen an improved performance, however Spinning Industry had a tough time due to US-China trade war resulting in decline in Cotton prices and thus impacting yarn pricing.
- Qtr 4 has been further extenuated the situation due to COVID-19 outbreak resulted in :-
 - Lockdown in India for almost 10 days in the quarter, impacting product and sales
 - Extreme volatility in forex from 72.5 to 75.5, resulting into M2M impacts.
 - Customers started cancelling/deferring orders in USA.
 - Uncertainty of price realization In the future
- Looking at the challenging times, various measures have been taken up to overcome the impact to the extent possible
 - Diligently work to reduce lead times, concentrating heavily on our online business.
 - Becoming frugal in committing expenditure and categorizing as “Essential” and “Good to Go” for a major reduction in overheads and operating costs
 - Optimize fixed manpower cost involved in operations.

Q4 FY20 Segment Highlights – Textiles

Particulars	Q4 FY19	Q4 FY20	YoY
Revenue (Rs. Crores)	308	214	-30%
EBITDA (Rs. Crores)	29	-1	-30 Cr.
EBITDA %	9.4%	-0.5 %	-10%

Performance Insights

- Revenues down by 30% as compared to Q4 FY19, mainly due to COVID Impact and lower yarn pricing.
- EBITDA is down by Rs. 30 crore primarily on account of following **One Time Impact** COVID-19, forex fluctuation and potential markdown and reduction in inventory, receivables and investments.

Textile – Quarterly Trend

FY20 Segment Highlights – Textiles

Particulars	FY19	FY20	YoY
Revenue (Rs. Crores)	1,202	1,074	-11 %
EBITDA (Rs. Crores)	112	77	-31 %
EBITDA %	9.3%	7.2 %	-2.1 %

Performance Insights

- Revenue down by 11% as compared to FY19, which is primarily due to weak scenario in spinning industry and global slowdown.
- EBITDA Margins 2% lower compared to FY19 primarily due to **One Time Cost** Impact of Rs. 30 crore in Q4FY20 (refer slide 15)
- Challenging times for textiles
 - Weak Yarn demand and subdued pricing.
 - Demand slowdown in US and shift in demand pattern from conventional stores to online retail & pandemic COVID situation.

Global outlook on the soda ash industry

GLOBAL SIZE: CAPACITY-70 MMT, PRODUCTION-61 MMT

Soda Ash Market Outlook

- Global economic weakness has resulted in softness in Soda Ash market which is further escalated due to COVID-19 outbreak.
- **China:** Registered record high Soda Ash production of 28 Mn MT in the year 2019 compared to 26 Mn in 2018. Post Covid-19, factories have restarted operations in many provinces, however manufacturers are carrying huge inventories due to demand slowdown.
- **Europe:** Most Soda Ash plants were continuing production until March end. Markets witnessing slowdown as Flat Glass across EU faced closure and there is significant demand contraction.
- **Turkey:** Production continued till March, but now they are operating at lower rates as most export markets face closure. Turkey is the second biggest soda ash exporter in the world, after USA. Their exports increased to 4.1 Mn which is 20% more than last year.
- **USA:** USA produced 11.7 Million MT in the year 2019. The US production is down by 1% where as domestic demand for soda ash also saw a negative growth of around 2% over 2018.
- **India** Expected to witness demand degrowth due to downstream Glass segment because of COVID-19 and softening soda ash prices.

Globally market is growing @ **2.0% pa** CAGR requiring around 1.2Mn MT additional supplies every year

THE
SPIN WIN
COLLECTION

51% COMBER NOIL, 49% ORGANIC COTTON

Upcycled as a result of the reuse of Comber Noil, a wasted by-product of the yarn spinning process.

Using Comber Noil instead of Cotton reduces the consumption of water by around 3200 gallons per set.

Global Recycled Standard certified.

THE
NEFERTITI
COLLECTION

50% COTTON, 35% LYOCCELL, 15% LINEN PERCALE

Made with 'more sustainable' BCI Cotton, which significantly reduces the consumption of water, chemical fertilizers and pesticides.

Lyocell fibers, of botanic origin, are truly sustainable and totally biodegradable.

Linen fibers are cellulosic and are derived from the Flax plant. The fibers are completely natural and are totally biodegradable.

Garment Washed for an ultra soft feel.

THE
VELVETTE
COLLECTION

70% TENCEL® LYOCCELL 30% COTTON TWILL

TENCEL™ Lyocell cellulosic fibers of botanic origin define a new standard of sustainability.

Supersoft touch | Excellent drape | Quick wicking provides luxurious comfort | Inhibits bacterial growth

THE
SYLVA-CEL
COLLECTION

60% TENCEL® LYOCCELL
40% RECYCLED POLYESTER PERCALE

TENCEL™ Lyocell fibers are derived from sustainable wood sources. These fibers are completely biodegradable and compostable.

Recycling PET helps reduce landfill space, crude oil consumption and CO2 emissions.

Made using VORTEX spun yarn.

THE
WOOD WHEEL
COLLECTION

100% REFIBRA® PERCALE

REFIBRA™ technology involves **upcycling** of post industrial cotton scraps, in addition to wood pulp.

REFIBRA™ fibers are identifiable in products due to the special technology designed to confirm fiber origin.

Supersoft | Comfortable | Inhibits bacterial growth

THE
NATURLIG

100% ORGANIC COTTON
NATURAL, SCAURED DOBBY

Natural scoured dobby.

No chemical processing.

Lower usage of chemical auxiliaries.

Significant reduction in water, steam and electricity consumption.

Reduction in environmental pollution.

THE
CRATUS
COLLECTION

65% SUPIMA COTTON
35% MICRO TENCEL® LYOCCELL

Uses American grown, extra long staple Supima Cotton. Supima is part of the Cotton LEADS Program, which fosters efforts in sustainable cotton production.

Twice as strong as regular cotton, Supima makes for extraordinarily resilient products.

Micro TENCEL™ Lyocell fibers are derived from sustainable wood sources and are known to be super absorbant and ultra soft.

THE
COMALL
COLLECTION

80% COTTON 20% MICRO TENCEL® LYOCCELL PERCALE

Uses 'more sustainable' BCI Cotton which reduces the consumption of water, chemical fertilizers and pesticides.

The Micro TENCEL™ wood based fiber is biodegradable and compostable.

Peached, for a supersoft luxurious feel.

About Us

GHCL Limited was incorporated on 14th of October 1983. The company has established itself as a well-diversified group with an ascertained footprint in chemicals, textiles and consumer products segment. In chemicals, the company mainly manufactures Soda Ash (Anhydrous Sodium Carbonate) that is a major raw material for detergents & glass industries and Sodium Bicarbonate (baking soda). Its textiles operations is an integrated set up which commences right from spinning of fiber (yarn), weaving, dyeing, printing till the finished products, like sheets & duvets, take shape which are primarily exported worldwide. GHCL's Home Textiles products are predominantly exported worldwide to countries like United Kingdom, United States of America, Australia, Canada, Germany and other European Union countries as well. Consumer Products operation is another business for GHCL where it is a leader in manufacturing and selling edible salt, industrial grade salt and jujube honey in the country under the brand name of I-Flo.

At GHCL Ltd., sustainability is a core element of the business strategy as defined under the aegis of 'GHCL Way' which has four pillars i.e. Responsible Stewardship, Social Inclusiveness, Promoting Relationship and Adding Value. GHCL is committed to working closely with all stakeholders at various plant locations for promoting the agenda of sustainability underpin on GHCL Ltd. core values (Respect, Trust, Ownership and Integrated Team work).

A handwritten signature in black ink, appearing to read 'Siddharth', is located in the bottom right corner of the slide.

The background of the slide is a photograph of a large industrial facility, likely a refinery or chemical plant. It features numerous tall distillation columns, a complex network of pipes, and large storage tanks. A white van is parked on a road in the foreground. The image is overlaid with a semi-transparent brown banner that contains the text 'Thank You'. The top and bottom edges of the slide feature a decorative border of green and white waves.

Thank You
